Arista Corporation Compliance with REACH Statement

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a European Union Commission (EUC) Regulation on chemicals and their safe use (EC 1907/2006) entered into force on 01 June, 2007 and has now been amended on 14 June 2023 with the newest REACH SVHC list of 235 substances.

Arista supports the basic aim of REACH in improving the protection of human health and environment through the better and earlier identification of intrinsic properties of chemical substance. Arista meets all applicable REACH requirements and is committed to provide our customers with information about substances in its products as required.

Under REACH, registrations of substances which are used in the manufacturing of articles do not apply to Arista's operations. Arista Corporation's products are "articles" as defined in REACH Article 3(3) and do not release substances under their normal use. Suppliers of articles must provide recipients with information on Substances of Very High Concern (SVHC) if those are present above a concentration limit of 0.1% on an article level.

Arista Corporation products do not contain any of the currently listed SVHC's. Arista will continue to work with our suppliers to ensure that all SVHC's are notified to the European Chemicals Agency, if necessary, to comply with REACH requirement.

Arista assures its customers that our products are in full compliance; the EU REACH requirement. Questions regarding our REACH compliance can be addressed via the following:

Sincerely,

Arista's Sales Team
