### >> Introduction

### **Computing Platforms & KPI Visualization**

ARISTA has developed a broad range of products for the pharmaceutical manufacturing process. Whether it is a batch or a continuous manufacturing process, such as API synthesis, crystallization, blending, granulation, tablet compression, or capsule coating. ARISTA has the automated process computing platforms or KPI visualization solutions for the cleanroom pharmaceutical manufacturing.

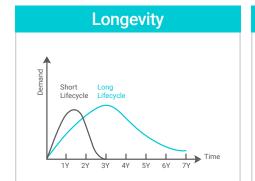

ARISTA computing and display solutions for the pharmaceutical industry are built with SS316L NEMA 4X/IP66 stainless steel enclosure to meet the highest hygiene requirements in pharmaceutical industries. Our broad and diverse solutions include Mobile Operator Workstation, Operator Workstation, Industrial Waterproof Panel PCs, and Industrial Remote Touch Displays.

The mobile workstations and operator workstation provide the options of waterproof membrane and rubber keyboards to cater to your individual needs. The mobile workstations have optional large capacity 1024A/h lithium battery to support multiple operational shifts; barcode scanners holder and space for label printers are also available depending on the model and configuration. The 55" wall recessed operator workstation is perfect for KPI visualization in cleanroom and let you master the full information from your production.

### Why ARISTA

Long product life cycle, revision control and flexible customization are the three major characteristics of ARISTA products and the reasons why pharmaceutical companies choose ARISTA as an essential partner among many manufacturers.

In the pharmaceutical industry, high reliability and stability are crucial. ARISTA's products guarantee a long product life cycle of 5-7 years, which allowing pharmaceutical manufactures not to worry about revalidating the replacement in critical manufacturing process.

#### **Revision Control**

ARISTA also has a Revision Control mechanism. In the event of a product design modification or part replacement takes place, we will notify our customers about the product revision and let them decide whether to conduct a test for the new version.

#### **Flexible Customization**

Our customers have high customization requirements, and ARISTA can provide small batch productions in varieties. We listen to the voices of customers and strive to meet their needs.

#### Mobile Operator Workstations High-capacity battery, wireless communication

ARISTA mobile workstations share a unique feature, that is having the interior room to hold a 1024Ah high capacity lithium battery, allowing you to work anywhere uninterruptedly. ARISTA mobile workstation models provide the Wi-Fi function, allow wireless communication in all corners of the laboratory, clean room, and factory. Also, there is a barcode scanner holder to the either side of the workstation to accommodate right or left- handed operation, which makes it convenient when you scan a barcode to verify or identify materials and other items. Some of our models even have space for a label printer. So you can scan the bar code and print out a label immediately. This design will improve your work efficiency.

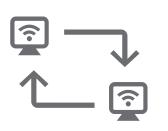

The mobile workstations are integrated with projected capacitive touch and come in different sizes of LCD displays; we offer models in 18, 19, 21.5 and 24 inches LCD touch displays. There are three options for the single-display models: single screen, dual-screen (19 or 4 inch), and triple-screen configurations.You can choose one of the three industrial grade waterproof keyboards : the KB-115A-AX membrane keyboard, or the KB-115B-AX and the KB-115C-AX rubber keyboards. The main difference between the latter two rubber keyboards is the design of the mouse control. There are lighter and smaller footprint base options available if customer does not require battery for the mobile workstation.

### Pharmaceutical Manufacturing Goes Mobile

### Going Wireless

The system is powered by a compact heavy-duty battery that allows the mobile workstation to function seamlessly and uninterruptedly while in motion. It is fully functional without the need for hard-wired access to power and communication sources. ARISTA wireless workstations save time from connection management and significantly increase workplace productivity.

#### Mobility

When it comes to large support systems like workstations, the ability to move the tool from one place to another maximizes its utility and reduces equipment redundancy. In addition, using mobile workstations enables rapid and easy reorganization of the work environment and process flow for more flexible management.

#### Customization

As individual pharmaceutical facilities often have unique requirements, the ARISTA Industrial Mobile Operator Workstations can be customized to meet client needs. Depending upon the level of change needed, the process can range anywhere from six to eight weeks for minor customization, or up to several months for more extensive projects.

#### **Operator Workstations** B Ergonomic & flexible use of limited space

ARISTA Operator Workstations provide diverse installation mounting options according to the different needs of customers, including benchtop, wall mount, wall-recessed, ceiling mount, VESA mount, and pedestal mount types. We also offer a highly flexible stainless steel pendant arm design for space saving utilization. The 360° double-joint(single-screen) and triple-joint (dual-screen) designs make the wall flush installation, folding, and retracting of the workstation easy tasks, and they are great for installations in the hallway or to make the best use of limited space.

The angle of the screen or keyboard in some models can be adjusted to complement the needs of operators' various heights and provide the most comfortable ergonomic way to operate the workstation for an extended period. When installing workstation in the hallway area, the wall-recessed workstations is the perfect solution. The fanless cooling design is implemented in all of our wall-recessed models to ensure the workstations operate stably and reliably. Besides the 15, 17, 19 and 21.5-inch displays, we also offer the 4K 55-inch large-format display workstation for you to use it as a Quad View display so you can visualize your KPIs and take full control of your production data.

#### AMA-1521AX Series **Key Features**

- 21.5" Active Matrix TFT LCD Display
- Native Resolution at 1920 x 1080
- Intel ATOM CPU/Intel 6th Gen Core-I CPU
- · Up to 8GB DDR3/Up to 16GB DDR4 SO-DIMM
- Projected Capacitive Touchscreen
- NEMA 4X Stainless Steel Fully Closed Enclosure
- ThinManager Ready Version Available
- Three Waterproof Keyboard Options

#### C Waterproof Panel PC Series Class 1 Division 2 Explosion Proof Panel PC

ARISTA Class 1 Division 2 explosion-proof Panel PC series offers a variety of touch screen and LCD display size options. ARP-3821AX with Projected Capacitive touch screen and ARP-5500AX Series with 5-wire Resistive touch screen both have UL Class 1 Division 2 explosion-proof certification. Explosion-proof panel computers can prevent the explosion caused by flammable or chemical substances floating in the air, which is especially desirable in the API (Active Pharmaceutical Ingredient) stage of the pharmaceutical manufacturing process. The APR-5500AX series provides LCD display sizes in 15, 17, and 19 inches and 5-wire Resistive touch screen. ARP-3821AX provides 21.5" LCD display and Projected Capacitive touch screen.

All models have Intel Atom or Core i series CPU processor options. Arista also offers a 42-inch large format LCD display Panel PC in non-hazardous area. All ARISTA touch screen Panel PCs are integrated with NEMA 4X enclosure, which meets the IP66 waterproof requirements. The chassis is designed to avoid the equipment from being soaked or corroded by cleansers or disinfectants during the cleaning in cleanroom. Or work areas have contact with hygienical, antibacterial agents and sanitizers, such as the mild acid or alkaline: LoHse, Bleach, Lysol, LoHst, Roccal II, esphene IIse, Spor-Klenz, etc.

### **Industrial Remote Touch Display Options**

ARISTA Waterproof Panel PCs and Remote Displays series are ideal for applications in cleanrooms or areas with increased sanitizing and hygiene standards. ARISTA provides LCD monitors with integrated KVM receiver and CAT 5e/6 cable solution, they are ideal for use as a remote terminal in harsh manufacturing environments or production lines.ARISTA's PoE transmitters use a single inexpensive CAT 5e/6 cable connection to enable the remote LCD monitors to display video content from the connected computer or video source. Also, ARISTA LCD monitors facilitate the concurrent delivery of uncompressed high definition video, Ethernet control, USB 2.0, and power via a CAT 5e/6 cable.

### **KVM Extender for Industrial Environments**

#### Waterproof Remote Display Series Extends the distance between computers and Displays / KVMs

The NEMA 4X/IP66 waterproof Remote Display and KVM (keyboard, video, mouse) series has a built-in receiver. You can transmit the HDMI, USB, and power sources via Transmitter to the Remote Display and KVM up to 330 feet (100 meters) away through a single CAT 5e/6 cable. When the signals from the computer reach the remote display through CAT 5e/6 cable, the remote display's built-in receiver decodes the signals to the connected mouse, keyboard, and touch display, while maintaining high quality display. This series is suitable for control room applications in the pharmaceutical industry and various other industries.

The 15-inch to 21.5-inch touch displays can be powered by ARISTA's transmitte that is shipped with the Remote Display and KVM. The Waterproof Remote Display Series is the ultimate solution to connect your control room and the remote display in the clearooms; it provides a connection greater than the HDMI's 15 meters limit, keeps the picture quality clear, and requires only simple wiring. ARISTA NEMA 4X/IP66 waterproof Remote Display and KVM series are ideal for applications where displays and computers must be located in different locations with greate distance.

## Selection Guide Industrial KVM Extender Integrated Displays

Model Name	ADM-2121AX-00A	ADM-5815AX-00A	
Display Size	21.5 inch	15 inch	
Resolution (Max)	1920 x 1080	1024 x 768	
Aspect Ratio	16:9	4:3	
Response time (Typical)	14 ms	8 ms	
Contrast Ratio	1000:1	700:1	
Brightness (Max)	250 nits	300 nits	
Video Input	HDMI via Transmitter	HDMI via Transmitter	
Touch Screen	Projected Capacitive	5-wire Resistive	
USB	2 x USB 2.0	2 x USB 2.0	
Touch Interface	via Transmitter	via Transmitter	
OS Support	Windows XP, Windows 7 & up	Windows XP, Windows 7 & up	
Power Requirement (Max)	powered by Transmitter	powered by Transmitter	
Power Consumption (Max)	21 W	11 W	
Recommended Power Supply	29 W	15 W	
Heat Dissipation	70 BTU/hr	36 BTU/hr	
Mounting	Pedestal/VESA/Wall/Ceiling/Benchtop	Pedestal/VESA/Wall/Ceiling/Benchtop	
Net Weight	20 Lbs/ 9.07 kg	27 Lbs/ 12.24 kg	
Dimension (WxHxD)	22.89 x 13.74 x 1.93 inch 581.4 x 348.9 x 49.1 mm	14.51 x 12.42 x 4.09 inch 368.6 x 315.5 x 103.9 mm	
Operating Temp	0~50°C (32~122°F)	0 to 50°C (32 to 122°F)	
Storage Temp	-20~60°C (-4~140°F)	-20 to 60°C (-4 to 140°F)	
Humidity	5% to 95% non-condensing	5% to 95% non-condensing
